General Terms and Conditions

Disclaimer

In the event a product is listed at an incorrect price or with an incorrect specification due to typing error or human error Milestone Systems reserves the right to refuse or cancel any orders placed for that product listed at the incorrect price. Milestone Systems reserves the right to refuse or cancel any order or orders due to a pricing error, even if the order has been processed.

Validity

The prices are valid from May 18, 2021, and until further notice.

All prices are in EUR.

Valid in: EU, EFTA, Turkey and United Kingdom.

All prices are manufacturer's suggested retail price (MSRP), excluding tax/VAT and shipment.

Ground shipment of physical Milestone Husky NVR units is NOT included in the MSRP price.

Price list revision date: April 13, 2021

Order Handling

All Milestone products can be ordered by distributors on the Milestone website (www.milestonesys.com) via Milestone Store, unless otherwise specified.

Region	Office Hours	Phone	Email
Americas	6 a.m. – 5 p.m. PST	+1 503 350 1100 option 1	us-sales@milestone.us

- XProtect® Expert
- XProtect® Corporate
- XProtect® Smart Wall
- XProtect® Retail

* Please note that the separate Milestone Professional Services addendum must be signed for resellers to offer Milestone Professional Services.

Special Distribution Restrictions Related to Milestone Husky NVRs and Surveillance Appliances Products

Distribution of the Milestone Husky NVRs is conditioned by acceptance and signing of the Milestone Distribution Partner addendum for distributors. The Milestone Husky NVRs may be sold by any reseller subject to the restriction above, and the geographical restrictions agreed with Milestone.

End user License Agreement

The deployment and use of any Milestone product is subject to the terms and conditions defined in Milestone end user license agreement (EULA). Please refer to the EULA for full details on the terms and conditions applicable to the specific Milestone product. The latest version of the EULA can be found on Milestone's website: www.milestonesys.com.

Licensing Requirements

Older versions of the price list stated that only one device license is needed per camera or other IP devices connected to any product. We emphasize that it is required to purchase one device license for each IP device that is connected to any product through another IP device, notwithstanding the number of device licenses which actually will be activated in the application. A specific encoder exception applies to Milestone supported multi-lens cameras and supported encoder with up to 16 connected analog cameras, where only one device license is required.

Please check the list of supported devices at <https://www.milestonesys.com/community/business-partner-tools/supported-devices>.

Product Lifecycle

The Milestone Product Lifecycle determines the period when products can be purchased, downloaded and receive support.

For add-on purchases and trade-ins of discontinued products please reach out to your local sales support

Lifecycle for XProtect – active product versions

Milestone's Video Management Software products change status from General Availability to Limited Availability three months after a similar or substituting product has been released. In special cases where a newer version has not been released, Limited Availability will start one year from the General Availability date. Milestone guarantees a minimal availability period of four years for all its VMS products, in which the product becomes Discontinued after three years from its General Availability date and Terminated after four years. Milestone reserves the right to prolong the lifespan of its products at its sole discretion. The stages are as follows:

- General availability
- Limited availability
- Discontinued
- Terminated

Lifecycle for XProtect – retiring products

Milestone's Video Management Software products follow a different schedule compared to active product versions after it is announced to be retired. The product will follow the changed phases after the last version of the product has been released. The stages are as follows:

- General availability
- Maintenance mode
- Limited availability
- Terminated

Lifecycle for Husky NVR and Video Surveillance Appliance products

Milestone's NVR products have a separate product lifecycle compared to the software offering. The stages are as follows:

- General availability
- Limited availability
- Sustaining
- Discontinued
- Terminated

For additional information and details on how each stage impacts the product in question as well as a list of discontinued and terminated products please visit our website:

<https://www.milestonesys.com/support/resources/product-lifecycle/>

Milestone Care

Milestone Care is a complete software maintenance and technical support program that takes care of your product throughout its lifetime. It is our commitment to you and your business to make sure you can take full advantage your product and get the most out of your investment. Designed to give you peace of mind, the Care program has two packages. Whether you need recurring software updates or 24/7 access to Milestone Support – there is a package to suit your needs.

Please note that there are slight differences in the support and service coverage of Milestone Care Plus and Care Premium and how the services are purchased between the XProtect VMS software line and the Husky NVR M series product lines.

Milestone Care Plus

On a recurring cadence, the XProtect® VMS products are updated to become better, safer, and more powerful. Designed as a software maintenance service, Milestone Care Plus, assures customers have access to the product updates instantly to help protect their initial investment and ensure the solidity of their systems. Here is what is included in Care Plus:

- Recurring product updates
- Full return on your investment

Milestone Care Plus Service Coverage per Product

Milestone Product	Trade-in value of Milestone software	Access to upgrades to more advanced software	Updates to the latest version of the same software
Milestone XProtect VMS Products			
XProtect Express+	100%	Yes, via trade-in order	Instant update via Customer Dashboard, or via trade-in order
XProtect Professional+			
XProtect Expert		No	
XProtect Corporate			
XProtect Add-on Products			
All XProtect add-on Products	Covered by the Milestone Care Plus service to the same extent as the underlying VMS/NVR (if applicable) product		
Milestone Husky NVR and Video Surveillance Appliance Products			
Husky X-series	There are no Care Plus options available for the Husky X-Series NVR. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky X-Series NVR.		
Husky Video Surveillance Appliances	There are no Care Plus options available for the Husky Video Surveillance Appliances. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky Video Surveillance Appliances Product.		

Milestone Care Plus is purchased in slightly different ways dependent on the type of Milestone product. The service coverage can either be purchased in conjunction with the actual product purchase, or made afterwards as a service opt-in purchase, according to the table below:

Milestone Product	Conditions upon initial product purchase	Available coverage periods at initial purchase	Coverage at system expansion (additional devices)	Opt-in option after product purchase
Milestone XProtect VMS Products				
XProtect Express+	Optional	1, 2, 3 and 5 years plans with progressive pricing.	Additional coverage must be purchased for devices added to the product. Extensions can be made by following existing expiration or by calculating a new expiration based on additional Care Plus purchase.	Possibility to (re-) join Care Plus service via three-year opt-in option
XProtect Professional+				
XProtect Expert	1 year mandatory coverage			
XProtect Corporate				
XProtect Add-on Products				
All XProtect add-on Products	Covered by the Milestone Care Plus service of the underlying VMS/NVR (if applicable) product without separate charge			
Milestone Husky NVR and Video Surveillance Appliance Products				
Husky X-Series	There are no Care Plus options available for the Husky X series NVR. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky X series NVR.			
Husky Video Surveillance Appliances	There are no Care Plus options available for the Husky Video Surveillance Appliances. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky Video Surveillance Appliances Product.			

Milestone Care Premium

When support cannot wait for Monday, Milestone Care Premium provides customers with business-critical installations direct, personalized, and prioritized access to the experts in the global Milestone technical support team round-the-clock. Here is what is included in Care Premium:

- 24/7 access to the Milestone Support Team.
- Prioritized support to ensure critical issues are dealt with quickly.
- Support in selected languages based on availability.

Milestone Product	Purchase periods	Pricing	Coverage at system expansion (additional devices)	Opt-in option after product purchase
Milestone XProtect VMS Products				
XProtect Professional+	1, 2, 3 and 5 years plans. Monthly coverage for alignment to specific date.	Percentage of total system, with progressive priced multi-year plans	Additional coverage must be purchased for devices added to the product. Extensions can be made by following the existing expiration or by calculating new expiration based on additional Care Premium purchase	Available at any time, no opt-in fee
XProtect Expert				
XProtect Corporate				
XProtect Add-on Products				
All XProtect add-on Products	Covered by the Milestone Care Premium service of the underlying VMS/NVR (if applicable) product without separate charge			
Milestone Husky NVR and Video Surveillance Appliance Products				
Husky X-Series	There are no Care Premium options available for the Husky X-Series NVR. Instead Care Premium can be purchased for the specific XProtect VMS used on the Husky X-Series NVR.			
Husky Video Surveillance Appliances	There are no Care Premium options available for the Husky Video Surveillance Appliances. Instead Care Premium can be purchased for the specific XProtect VMS used on the Husky Video Surveillance Appliances Product.			

How to purchase Milestone Care

To secure Care Plus coverage the service shall be purchased with the XProtect VMS product, or maximum 30 days after the original product purchase. XProtect VMS customers who wants to join the Care Plus service at a later stage, or re-join after a period without coverage can do so using the three years opt-in option. There is also a grace period of 30 days from the expiration of an existing Milestone Care Plus coverage, in which the end-customer can purchase Milestone Care Plus under normal terms.

Milestone Care Premium can be purchased at any time. However, Care Plus must be purchased as a prerequisite and the Care Premium expiration date cannot exceed that of the Care Plus. End customers can purchase Care Premium on any single license, just as they can Care Plus.

The minimum coverage period for both Milestone Care Plus and Care Premium is one year. Milestone Care can however also be purchased in increments of months, which is beneficial for installations that want to have their Care agreement(s) expire on a certain month (e.g. in alignment with a budgeting period). Milestone Care will always fall on the last day of the calculated month.

(Please note that for Milestone NVR products, Milestone Care coverage period is maximum 5 years from the date of purchase).

How to purchase Milestone both Milestone Care Plus and Milestone Care Premium coverage in connection with system expansions of an XProtect VMS product

The following section is only applicable to XProtect VMS software products.

Milestone Care is linked to an individual system's base license. Milestone Care for system expansions must be aligned with or extend the Milestone Care of the existing installation. Please note that Milestone Care can never be shortened and will always expire on the last day of the calculated month. When expanding an existing XProtect system with additional cameras, the end-customer can maintain full Milestone Care coverage in two ways:

1. Keep the original Milestone Care coverage period

An end-customer can maintain an existing Milestone Care renewal date when purchasing additional cameras, by purchasing Milestone Care coverage for the additional device licenses on a monthly basis (the required amount is automatically calculated in Milestone Store). This is useful if the main Milestone Care renewal date is aligned with the end customer's calendar or fiscal year.

2. Extend the original Milestone Care coverage period

The end-customer can purchase one or more years of Milestone Care coverage when extending an existing system. This Milestone Care service coverage which will be used to calculate a new and prolonged Milestone Care coverage period for the total system (still always expiring on the last day of the calculated month). The new Milestone Care coverage period is calculated based on the value of the remaining main Milestone Care coverage period and the size and nature of the system expansion.

If an end-customer does not want to purchase Milestone Care coverage for the system expansion after possible mandatory initial Milestone Care coverage period, the main Milestone Care will be terminated from the purchase date of the system expansion. Any remaining value of the main Milestone Care coverage period is not refunded. For details on how to ensure continuous Milestone Care coverage in conjunction with system expansions, please contact Milestone Sales Support.

Milestone Care Coverage in connection with upgrades

Milestone Care coverage is linked to a specific Milestone product. This means that end-customers upgrading to a more advanced product, for example when upgrading from XProtect Professional to XProtect Expert must also trade-in their Milestone Care in order to maintain coverage. To enable easy upgrades between different XProtect products, Milestone credits the price of the remaining unused Milestone Care coverage period to the price of the new Milestone Care. It is required to buy at least the same amount of Milestone Care as on the product being traded-in. However, if Milestone Care traded-in is less than one year, a minimum of one year is required on the new product.

A refund from trading-in software products cannot be converted to a cash payout, voucher etc. A negative value will instead be set to 0.00 or can be used for purchase of other Milestone products within the same order.

Trade-in

Milestone currently offers a unique trade-in policy for our software products, which allows customers to protect investments made in Milestone software. The trade-in policy offers:

- Software update to a newer version of the same product
- Software upgrade to a more advanced product, for example upgrade from XProtect Expert to XProtect Corporate

The present Milestone trade-in policy grants the customer a refund on the old product to be updated/upgraded, where the amount credited is dependent on the Milestone Care service level

- Customers with active Milestone Care Plus are entitled to **100 percent** refund of the current recommended retail price when trading-in licenses for their existing XProtect products.
- Customers without Milestone Care Plus coverage are entitled to **30 percent** refund of the current recommended retail price of their existing product.

A refund from trading in software products cannot be converted to a cash payout, voucher etc., but will instead have to be used for purchase of other Milestone products.

Customers with Milestone Care Plus can instantly update their software to the latest version via the Customer Dashboard (also known as CUDA). Customers who want to upgrade to a more advanced product, or customers without Milestone Care Plus coverage who want to update their present Milestone product need to do that as an order transaction via Milestone Store.

The trade-in options vary slightly between the different Milestone products. For details, please refer to the trade-in options for the specific Milestone product in this price list.

Please note that the terms outlined above reflect our current trade-in policy, which may be subject to change.

Milestone Professional Services

Milestone Professional Services is a portfolio of system deployment and optimization services designed to unlock the full potential of the Milestone system while optimizing the system performance for problem-free and stable operation.

Availability

Any Distributor intermediating Professional Services must sign an addendum written for the purpose. Obligations, rights and liabilities differs from software and hardware sales and must thus be acknowledged and accepted by distributor prior to getting access to the specific Professional Services SKU list.

Statement of Work & Quotation

Any Reseller Partner purchasing Professional Services will receive a Statement of Work (SOW) and Statement of Work Quotation (SOWQ). These two distinct documents formalizes deliverables for all involved legal entities and constitutes acceptance of the included terms, liabilities and cost estimates upon signature by Reseller Partner. Such terms are not relating to payment, but emphasize the role of Reseller Partner, Distributor and how any disputes are governed. Milestone Professional Services are charged on a time and material basis.

Service Reports & Completion Form

The Milestone Engineer shall fill in and obtain Reseller Partner's signature on regular basis to document the delivered work. Service Reports are stating the progress on scheduled delivery and used by Milestone Program Management to monitor compliancy. A SOW will be due for invoicing when the deliverables have been completed. Reseller Partner accepts the completion by signing the Completion Form.

XProtect VMS Products

XProtect Essential+

XProtect Essential+ is a full-featured version of Milestone’s market-leading video management software (VMS) at no cost. With support for eight cameras, XProtect Essential+ is the perfect match for the smaller business owner who wants video surveillance to protect employees and assets. With the ability to integrate with other systems and applications, users can explore the Milestone community and the power of the open platform. If you want access to your system from anywhere, XProtect Essential+ provides it all. Whether you are on the go, on the job or at home, your system is only a click away. Why start anywhere else?

Free download address: <https://www.milestonesys.com/>

For information regarding XProtect Essential 2016 R2 or older version, please refer to the section Limited Available Products.

Lifecycle stage: General availability

Current version: 2020 R3

XProtect Express+

XProtect Express+ is IP video management software (VMS) for smaller, single-location companies. It is built with innovative technology designed to save you money and boost the overall performance of your hardware. With full alarm management capabilities and multi-layered map XProtect Express+ is suited for business with light live monitoring needs. It can manage up to 48 surveillance cameras and supports simple ways of incorporating video into existing business operations, such as linking access control to live video feeds. XProtect Express+ is the perfect match for retail shops, parking lots or office buildings with moderate security needs.

Lifecycle stage: General availability

Available for: All Milestone resellers

Current version: 2020 R3

NOTES

- 1) XProtect Express+ Base License (XPEXPLUSBL) allows the XProtect Express+ server software to be installed on a single computer per Software License Code. The client software can be installed on unlimited number of workstations and at different locations. To enable AAC Audio, two AAC audio licenses are included in the Base License.
- 2) Please refer to the Licensing Requirements on page 5 for further details.
- 3) To enable AAC audio, one AAC audio license per concurrent XProtect Smart Client using AAC audio is required. Two AAC audio licenses are included in the Base License, if you need additional AAC audio licenses, they are available in packs of 50 licenses.
- 4) Can be used to trade-in to corresponding product license for XProtect Professional+, XProtect Expert or XProtect Corporate.
- 5) Can be used to trade-in to newer versions of the same product or corresponding product license for XProtect Professional+, XProtect Expert or XProtect Corporate.

XProtect Professional+

XProtect Professional+ is IP video management software (VMS) designed for mid-sized businesses. It is built with innovative technology designed to save you money and boost the overall performance of your hardware. With the ability for operators to centrally manage all servers, cameras and users the software is ideal for installations spread across multiple sites. Multi-layered maps and full alarm management capabilities give operators a complete overview of their security installation to quickly respond to incidents and provide accurate information to first responders. XProtect Professional+ supports camera-based Edge Storage to help minimize the loss of video and is the perfect choice for institutions such as schools, museums, hospitals and production plants.

XProtect Expert

XProtect Expert is IP video management software (VMS) for mid-sized and large-scale installations. It is built with innovative technology designed to ensure video integrity and boost the overall performance of your hardware. In addition to camera-based Edge Storage support, XProtect Expert offers reliable, uninterrupted video recording and access through failover recording servers in the event of server failure. The software includes central management of an unrestricted number of servers, cameras and users making it the perfect choice for companies deployed across multiple locations. With multi-layered maps, alarm handling and optional integrated video wall support, XProtect Expert is also ideal for installations with active live monitoring such as warehouses and stadiums.

N.B. Milestone Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBL and XPETDL licenses) during the first year after the initial purchase of the Base License (XPETBL).

NOTES

- 1) XProtect Expert Base License (XPETBL) allows the XProtect Expert server software to be installed on unrestricted Management Server (or one server cluster) and an unlimited number of Recording Servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. To enable AAC Audio, two AAC audio licenses are included in the Base License.
- 2) Please refer to the Licensing Requirements on page 5 for further details.
- 3) To enable AAC audio, one AAC audio license per concurrent XProtect Smart Client using AAC audio is required. Two AAC audio licenses are included in the Base License, if you need additional AAC audio licenses, they are available in packs of 50 licenses.
- 4) Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBL and XPETDL licenses) for minimum one year after the initial purchase of the Base License (XPETBL).
- 5) Can be used to trade-in to corresponding product license for XProtect Corporate.
- 6) Can be used to trade-in to newer versions of the same product, or to corresponding product license for XProtect Corporate.

XProtect Corporate

XProtect Corporate is IP video management software (VMS) designed for large-scale and high-security installations. It is built with innovative technology designed to ensure end-to-end protection of video integrity and boost the overall performance of your hardware. In addition to central management of all servers, cameras and users in a multi-site set-up, XProtect Corporate includes an integrated video wall for operators demanding supreme situational awareness of any event. The software supports failover recording servers making it the perfect choice for mission-critical installations that require continued access to live and uninterrupted video recordings in the event of a server failure. Running on the industry's best performing recording engine with a recording rate of minimum 3.1 Gbit/s, XProtect Corporate is ideal for installations with 24/7 operation requirements, such as airports and casinos.

N.B. Milestone Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses) during the first year after the initial purchase of the Base License (XPCOBT).

NOTES

- 1) XProtect Corporate Base License (XPCOBT) allows the XProtect Corporate server software to be installed on an unrestricted number of servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. When purchased for 2014 or newer versions of XProtect Corporate, the base license includes one XProtect Smart Wall Base License (XPSWBL). To enable AAC Audio, two AAC audio licenses are included in the Base License.
- 2) Please refer to the Licensing Requirements on page 5 for further details.
- 3) One XProtect Corporate Milestone Interconnect Camera License (XPCOMIDL) is required per remote camera enabled in the central XProtect Corporate system. NB. An interconnected remote system without any enabled cameras will require one Milestone Interconnect Camera License.
- 4) To enable AAC audio, one AAC audio license per concurrent XProtect Smart Client using AAC audio is required. Two AAC audio licenses are included in the Base License, if you need additional AAC audio licenses, they are available in packs of 50 licenses.
- 5) Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses) for minimum one year after the initial purchase of the Base License (XPCOBT). Care Plus coverage purchased for the XProtect Corporate Base License (XPCOBT) also covers the included XProtect Smart Wall for 2014 or newer versions of XProtect Corporate.
- 6) Care Plus coverage purchased for the XProtect Corporate Base License (XPCOBT) also covers the included XProtect Smart Wall for 2014 or newer versions of XProtect Corporate and any associated Milestone Interconnect Device Licenses.
- 7) Can be used to Trade-in to newer versions of the same product.

LICENSING OF MILESTONE INTERCONNECT™

Milestone Interconnect allows a XProtect Corporate VMS system to access cameras residing in other video management systems. These systems can be other Milestone XProtect VMS systems or Arcules VSaaS cloud service. For a complete list of compatible products, please refer to Milestone website <https://www.milestonesys.com/solutions/hardware-and-add-ons/milestone-addons/interconnect/milestone-interconnect-compatibility/>.

One Milestone Interconnect Device License is required per camera in an interconnected remote site that is enabled in the central XProtect Corporate system. It is possible to interconnect a subset of the cameras in an interconnected system. Please note that an interconnected remote system without any enabled cameras will require one Milestone Interconnect Device License.

Interconnected remote systems are licensed independently via the normal licensing structure applicable for the particular product. Hence, interconnected remote systems do not require additional licenses when interconnected to a central XProtect Corporate system. This also includes products purchased before Milestone Interconnect was introduced.

XProtect Clients

XProtect Smart Client

For Milestone XProtect IP video management software, the XProtect Smart Client is a powerful, easy-to-use client application for the daily operations of security installations. A streamlined interface helps improve usability, making it easy to monitor installations of all sizes, manage security incidents and access and export live and recorded video.

Continually setting the standard for usability in IP VMS products, the XProtect Smart Client provides an extremely efficient working environment that can be optimized for different tasks and operator requirements. Advanced investigation tools combined with the easy-to-navigate video timeline enable fast and accurate examination of incidents. Export options, including digital signature, enable you to more efficiently and securely export video evidence.

Lifecycle stage: General availability

Current version: 2020 R3

LICENSES

XProtect Smart Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

XProtect Web Client

Designed for XProtect video management software (VMS), Milestone Husky™ NVRs and Milestone Husky™ Video Surveillance Appliance Products, XProtect® Web Client is an intuitive web-based interface to view, play back and share video. It provides instant access to all essential functions and it is quick to learn and simple to operate for users of all skill levels. Available in 31 languages, XProtect Web Client provides remote access to the surveillance system from all common browsers and computer operating systems. XProtect Web Client runs on any Internet-enabled computer or device without installation, including optional browser plug-ins. It offers system scalability and an optimized user experience in systems with many users.

Lifecycle stage: General availability

Current version: 2020 R3

LICENSES

XProtect Web Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

XProtect Mobile

XProtect Mobile is a free application for Apple® and Android™ devices that allows users to view video instantly using smartphones or tablets. It operates seamlessly with all XProtect® video management software (VMS), Milestone Husky™ NVRs, Milestone Husky™ Video Surveillance Appliance Products and the Milestone Arcus™ platform via Wi-Fi, 3G or 4G connections. With XProtect Mobile users can view, play back and export video, manage access control and push live video from the device's camera, allowing users to see what's important regardless of their location. XProtect Mobile available in 31 different languages, allowing users to work with the application in their native language.

Lifecycle stage: General availability

Current version: 2020 R3

LICENSES

XProtect Mobile can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

However, to use Video Push, a device license is required for each XProtect Mobile device from which users shall be able to push video. The price of the device license is determined by the specific Milestone product being used.

XProtect Add-on Products

XProtect Smart Wall

XProtect Smart Wall is a video wall solution that provides visual coordination and decision support to operators working in response centers and control rooms. The tight integration with the XProtect® Smart Client makes XProtect Smart Wall an efficient collaborative canvas for gaining situational overview, assessing incidents and coordinating response activities. It supports any number or combination of monitors and runs on standard servers and displays, enabling flexible and cost-efficient installations.

Lifecycle stage: General availability

Available for: partners who are Gold level or above and have been approved by local Milestone sales representative

NOTES

- 1) XProtect Smart Wall is an optional add-on license for XProtect Corporate 3.0 to 2013 R2, and XProtect Expert 2014 and newer versions of XProtect Expert. XProtect Smart Wall is included in XProtect Corporate Base License (XPCOBL) as of version 2014. The XPSWBL is linked to a specific XProtect Corporate or XProtect Expert system's Base License and gives the right to run unlimited XProtect Smart Walls, displays and camera streams under that Base License.

XProtect Access

Milestone XProtect Access is an XProtect Add-on product that video enables physical security through integration of access control and intrusion systems. XProtect Access provides operators unified access to all primary and most common functions in the integrated access control system as an integral part of XProtect Smart Client. The video enablement of access control systems empowers operators to effectively monitor access events, manually assist passages and conduct investigations on specific access points or cardholders, while enriching the value of reports and evidence material.

Extending the capabilities of the Milestone Integration Platform, the unique plug-in architecture makes integration of physical security systems easy, while reducing cost of installation at the customer site. With its decoupling of the video system and the access control system, XProtect Access provides customers with the freedom of selecting the system of their choice to match the specific needs and budget. XProtect Access is an XProtect Add-on product, compatible with all XProtect VMS products, except XProtect Essential+.

For information on XProtect Access, please reach out to your local Sales Support.

XProtect Transact

XProtect Transact video enables different types of transaction-based processes. It has a broad market applicability in sectors such as retail, transportation and banking & finance to reduce and investigate shrinkage and fraud. Combining transaction data from point of sales systems, scanners, cash point machines, or similar systems with corresponding video, XProtect Transact enables real-time monitoring, exception handling and documentation of transactions.

XProtect Transact is an XProtect Add-on product, compatible with all XProtect VMS products, except XProtect Essential+.

XProtect LPR

XProtect LPR is license plate recognition (LPR) software that detects license plate information from any vehicle around the world and links the license plate number with video. It is a simple way to control vehicle access, for example, for entrance/exit barriers, parking spaces and toll gates. XProtect LPR can send a notification when a certain license plate is detected, enabling users to quickly take action. Users can also define positive/negative lists that will initiate certain actions, such as opening a gate, which increases work productivity and can help automate tasks. XProtect LPR is an add-on product that is seamlessly configured and managed through the supported XProtect video management software (VMS) products.

XProtect LPR is compatible with all XProtect VMS products, except XProtect Essential+.

Please note:

From 2019 R2, XProtect LPR for XProtect Express and Professional will exist in a separate installer and will not be updated to include new features and/or new country modules. There will be no further development on the detached XProtect LPR for XProtect Express and Professional.

NOTES

- 1) XProtect LPR Base License (XPLPRBL) allows the XProtect LPR server software to be installed on unlimited number of servers per Software License Code. Includes five XProtect LPR Country Modules. Additional libraries required must be purchased in excess, using the XProtect LPR Country Modules (XPLPRLL) license.
- 2) License per camera running LPR analytics.
- 3) Additional country modules (beyond the 5 included modules) for XProtect LPR covering a specific region, state or country. The XPLPRLL license allows the LPR country module to be deployed on an unlimited number of XProtect LPR servers in a given installation. Please contact Milestone web (<https://www.milestonesys.com/solutions/hardware-and-add-ons/milestone-addons/lpr/>) for details on available LPR country modules.

XProtect Screen Recorder

The XProtect Screen Recorder is a function that enables Milestone XProtect IP video management software to inconspicuously capture screen recordings of any Windows-based PC or point-of-sale terminal. Captured screen recordings are managed in the same way as video (camera) data in the XProtect VMS. This feature helps manage loss and fraud by monitoring the use of business systems and documenting customer transactions. XProtect Screen Recorder improves efficiency by allowing you to audit staff activities and conduct training and education. The XProtect Screen Recorder works seamlessly with all Milestone XProtect VMS products.

Lifecycle stage: General availability

Current version: 2020 R3

LICENSES

Although the XProtect Screen Recorder is not subject to licensing as such, one (1) device license in the Milestone XProtect video management product or Milestone Husky NVR unit is needed per monitored PC or POS equipment.

XProtect Retail

XProtect Retail is an investigation tool for performing advanced transaction data analysis. It helps retailers optimize store operations and increase profit by identifying fraud and reducing shrinkage. Based on transaction data from point-of-sale (POS) or automated teller machines (ATMs) typically gathered in Enterprise Resource Planning (ERP) systems, XProtect Retail links data with corresponding video from relevant cameras. Advanced search options, full video documentation and a set of pre-defined performance indicators make it easy to maintain a complete overview of store operations, cash registers/tills and employees so you can protect your entire business and customers. The XProtect Retail solution offers an Application Programming Interface (API) which enables the customer to populate the Milestone Database with transactional data.

XProtect Retail is compatible with all XProtect VMS products, except XProtect Essential+.

Standard Purchase of an XProtect Retail solution requires purchase of a mandatory XProtect Retail Integration Service (MSCXPR) that includes:

- Assistance in scoping and defining the retail solution
- Assistance during the development phase of the integration

Customized

Milestone also offers customized development of integration into the Retail solution on a fixed price basis. For customers requiring this, and for customers with more complex retail solutions, additional consultancy assistance can be purchased on a daily basis (MSCXPRD) to cover:

- Analysis of customer specific systems to be integrated with the retail solution
- Implementation of the retail solution (data and function integration)
- Optimization of the data base performance
- Test and document of the retail solution
- Assistance during the deployment of the solution (camera setup, mapping of tills in the system, etc.)

XProtect Retail must be ordered manually via the Milestone Sales Support department and is not available in Milestone Store. Purchase of a Retail solution is subject to closure of a separate development contract.

Please refer to page 3 for contact details.

Available for: Advanced Certified Milestone partners only and when approved by the Milestone Channel Business Manager

MILESTONE CARE PLUS OPTIONS

There are no XProtect Retail specific Milestone Care Plus options available. However, it is mandatory to purchase Milestone Care Plus coverage for the underlying XProtect platform that is used together with the XProtect Retail solution.

TRADE-IN CREDIT

Trade-in of XProtect Retail licenses is not available.

NOTES

- 1) Gives the right to deploy and use the XProtect Retail solution on unlimited number of servers and sites for the given installation (legal entity).
- 2) One XProtect Retail Connection License (XPRCL) is required for each device, such as POS, till, scanner, etc., that is connected to the XProtect Retail solution.
- 3) Includes one week of XProtect Retail Integration Assistance for integration of customer specific databases and business systems. Additional integration work may be required dependent on the nature and complexity of the integration. Service is mandatory with any purchase of XProtect Retail. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).
- 4) Daily rate for additional Retail specific integration services. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).

Milestone Husky NVR Products and Husky Video Surveillance Appliance Products

Milestone Husky X series

The Milestone Husky X series is a range of network video recorders designed by Milestone for XProtect video management software. With its dedicated hardware design, carefully selected components and the use of hardware accelerated video decoding, the Milestone Husky X series of NVRs unlocks the full potential of Milestone XProtect VMS, offering remarkable performance and low total cost of ownership.

With a selection of barebone variants and storage, the NVRs can be customized to meet any need in terms of camera capacity and retention time. All Milestone Husky X series NVRs come with pre-installed market-leading XProtect video management software. Customers can freely select the version of the XProtect VMS that meets their needs. The Milestone Husky X series NVRs come with a three-year hardware warranty.

Download and use the Milestone Husky Calculator to select the optimal Husky solution with confidence - <http://husky.milestonesys.com/MHC/setup.exe>

Please confirm with your Milestone Sales contact on availability of units before placing your order.

Milestone Husky X2

The Milestone Husky X2 is a plug-n-play network video recorder with a built-in PoE switch and input/output panel. With a verified continuous recording throughput of more than 550 Mbit/s, it provides the power and scalability required in most small to mid-market surveillance installations. The Milestone Husky X2 comes with pre-installed XProtect VMS, allowing everyone to start right with the free XProtect Essential+, or any other XProtect version.

Lifecycle stage: General availability

Milestone Husky Video Surveillance Appliance Products

Power to Perform.

Introducing the new Milestone Husky™ video surveillance appliances.

The new Milestone Husky™ series offers a range of appliances to cover almost all solution needs. Whether it's for simple installation, maximum uptime, or critical data storage, there's a Husky for you.

This new scalable portfolio is designed to fit numerous XProtect use cases to give you the most from your installation. From the small corner store to the massive football stadium, Husky's range works seamlessly with XProtect to provide the performance and reliability needed to get the most out of your surveillance solution.

Key benefits:

- Optimized for XProtect so that you can achieve more with your video solution
- Easy to install, use and maintain – pre-loaded with XProtect
- Single point of support for both hardware and the VMS
- Prepared for evolving needs

The portfolio contains 6 products, each with multiple storage options available. All appliances in this series comes with a standard, 5-years warranty.

For more information about the new Milestone Husky™ portfolio, along with the services available, check our webpage: <https://milestone-new-husky-series.webflow.io/>

Milestone Husky 150 Desktop

Reliable and simple setup for smaller sites.

The Husky 150 Desktop model is made to support smaller sites with few cameras and minimal need to view real-time footage locally. Data is saved locally or sent to a central data location to ensure continuous recording. Ideal for multi-site installations like retail stores, gas stations, and ATMs, Husky 150 Desktop provides a simple, low-cost setup that merges seamlessly with your XProtect VMS.

Lifecycle stage: -

Available for pre-order starting May 18th, 2021

MILESTONE CARE OPTIONS

There are no Care Plus or Care Premium options available for the Husky Video Surveillance Appliance Products. Instead Care services can be purchased for the specific XProtect VMS used on the Husky Husky Video Surveillance Appliance Products.

TRADE-IN CREDIT

Trade-in of Milestone Husky 150D is not available.

NOTES

- 1) Milestone Husky Video Surveillance Appliance Products are preloaded with Milestone XProtect VMS, which means that they can be used with the following XProtect VMS variants: Express+, Professional+, Expert and Corporate, where required licenses are obtained separately. The units can also be used with XProtect Essential+ with up to 8 cameras for free.

Milestone Husky 350 Tower

The ideal setup for small installations, with the freedom to scale up.

New Husky 350 Tower and Rack are Husky products for those who aim to start small and have the flexibility to grow – like retail businesses, logistics or warehousing. Overall, these versatile units offer high reliability and uptime and minimal redundancy for continuous recording and a good start with XProtect.

Milestone Services

As a complements to Milestone’s video surveillance products, Milestone offers a portfolio of services designed to maximize the value of Milestone products for partners and customers. The service portfolio includes a wide range of customization and post-sales services:

- **Custom Development** – a customization and integration service enabling Milestone ecosystem partners to meet specific customer needs by fully explore the utilize of Milestone’s open platform technology
- **Milestone Professional Services** - a portfolio of system deployment and optimization services designed to unlock the full potential of Milestone installations while optimizing the system performance for a problem-free and stable operation

Please note that the service prices do not include travel expenses for services conducted by Milestone on a customer or partner site. To account for these expenses, travel expense vouchers can be purchased.

SERVICES		MSRP	
SKU ID	Name	EUR	Note
MSEFE	Expedite fee, Voucher	100,00	1
MSTXP	Travel Expenses Voucher related to Services Delivery	200,00	

Custom Development

Milestone’s XProtect open platform software allows for integration with the widest choice of third-party applications and business systems via the Milestone Integration Platform (MIP). The open architecture of XProtect provides endless possibilities to create custom, powerful video management solutions.

The Milestone Custom Development service offers assistance in developing, installing and supporting tailor-made integrated solutions. We also deliver services and software that enable our partners to offer complete solutions that match customer needs for IP-based video surveillance systems. Our experienced consultants have broad experience integrating 3rd-party applications and business systems into tailor-made XProtect software including:

- Access control
- Alarm systems
- Video analytics
- Point-of-sale (POS) systems
- Enterprise resource planning (ERP) databases

Each integrated solution is managed by a dedicated project leader and developed by one or more senior developers to ensure functionality and quality. Solutions are also tested in-house by the Milestone Test Department. All consultancy department staff members are senior engineers with a bachelor’s or master’s degree and many years’ experience in the industry, ensuring a high-quality solution.

Not only can we provide you with expertise, the consultancy department also offers in-depth training of the MIP Software Development Kit (SDK), the comprehensive tool used to create applications for XProtect. The hands-on training is beneficial for experienced developers who want to create their own integration for XProtect software.

For more information about our consultancy services, contact us at Consultancy@milestonesys.com.

Custom Development services cannot be ordered via Milestone Store.

Retiring or Terminated Products

Milestone products have a lifecycle with several stages, depending on their availability and support. For more information on the details of each stage and how it applies to the different products, please refer to page 6 for further information on the Product Lifecycle.

Terminated Products

Although a Milestone product reaches the Terminated stage, there will still be options for expansion and self help support resources. Please refer to our product lifecycle on page 6 for more information.

TRADE-IN CREDIT

As part of Milestone XProtect and described in more detail on page 7, it is under attractive terms possible to trade-in terminated Milestone software products in exchange for a more recent offering.

For quotes on possible trade-ins of older Milestone products please reach out to your local sales support.

Please refer to page 3 for contact details.

Revisions

XProtect Portfolio of Products

Care Rules have been updated and simplified

Daily Care SKUs have been replaced with Monthly SKUs.

Care Premium can no longer be purchased on XProtect Essential, XProtect Express or XProtect Express+.

Care Premium no longer requires the purchase of a start-up fee.

Care Premium is no longer required on all end customer SLCs and can now be purchased for specific licenses, same as Care Plus.

Care on Interconnect is now covered by the Care of the Corporate installation.

Husky NVR Portfolio of Products

New Husky NVR Portfolio available for pre-order May 18

New Husky Portfolio introduced to the Milestone product suite.

Available in 5 main models depending on your needs.

HDD included in the SKU for simplified purchasing.

About Milestone Systems

Milestone Systems is a global industry leader in open platform IP video management software, founded in 1998 and now operating as a standalone company in the Canon Group. Milestone technology is easy to manage, reliable and proven in thousands of customer installations, providing flexible choices in network hardware and integrations with other systems. Sold through partners in more than 100 countries, Milestone solutions help organizations to manage risks, protect people and assets, optimize processes and reduce costs.
